Education

University of Koneru Lakshmaiah, B-Tech in Computer Science   July 2023 – Aug 2027
- GPA: 9.14/10
- **Coursework:** Programming Languages,Data Structures and Algorithms,Software Engineering,Theory of Computation

Skills Summary

- Languages:C,Java,HTML,CSS,Java Script,Python
- Databases:SQL-PostgreSQL
- Developer Tools:Git Hub,VS Code,Eclipse
- Relevant Course Work:Programming Languages,Data Structures and Algorithms,OOPS,Theory of Computation,DataBase Management System,Operating System
- Soft Skills:Problem Solving,Teamwork Collaboration,Time Management,Leadership,Flexibility,Adaptability,Communication Skills,Attention to detail

Certifications

LinguaSkill Certificate Assigned by Cambridge University.,
Certificate Assingned by JPMorgan Chase's Investment Banking,
Achieved Salesforce Ai Associate Certificate: Demonstrated by Salesforce

Projects

Panzer Tanker
- We Build a Panzer Tanker Project That works similarly like an army tanker which aims the target by using the potentiometer and rotates by using steppermotor and shoot the target by using a button. we worked together and achieved 4th price in Project Expo
- Tools Used:Cup Boards,BreadBoard,Ardiuno Board,Potentiometer,Stepper Motor,Lcd Display,Rubberbands,Wires,C Language

Disaster Management System
- Developed a Disaster Management System using full stack technologies. This system allows for real-time monitoring and coordination during emergency situations. Multiple users can input and view disaster-related data, and the system synchronizes all updates seamlessly.
- Tools Used: VS Code,React,Node.js

Positions of Responsibility

- Active member of ZeroOne Code Club
- Volunteer in college fest "Samyak"
